Context for National Resilience Programme (NRP)

Becoming eligible for graduation from LDC, Bangladesh has taken its status to a new height. The country earned global reputation in many areas of MDGs and currently development agenda is highly focused in achieving SDGs. In spite of all glorious success, Bangladesh economy is at risk of growing loss and damages due to disaster and climate stresses. Between 1970 and 2013, the country reported over USD 180.3 million in economic losses from natural disasters. Considering the significant linkage between disasters and development, 7th Five Year Plan of the Government of Bangladesh emphasized on a sustainable development pathway that is resilient to disaster and climate change.

Under above context, National Resilience Programme (NRP) has been formulated for 36 months. The NRP formally launched on 14 November 2018 and will continue till March 2021.

NRP is funded by Swedish International Development Cooperation Agency (Sida) and Department for International Development (DFID), UK. This programme has technical partnership with UNDP, UN-Women and UNOPS and implementing partnership with four GoB agencies.

NRP Goal

The goal of the NRP is to sustain the resilience of human and economic development in Bangladesh through inclusive, gender responsive disaster management and risk informed development.

NRP - Programming Division Part

This sub-project was approved by the Ministry of Planning on 31 July 2018 and formally started work from September 2018 and will continue till March 2021.

Output of NRP-PD
Improved capacities for gender responsive and risk informed development planning

Result Areas

- Establishment of platforms collecting risk information and tools for disability inclusive, gender responsive and risk informed planning
- Enhance capacity of the Planning Commission for disaster and climate risk screening of Annual Development Program (ADP) included projects
- Support integration of risk information in macro level development planning
- Enhance disaster risk knowledge and capacity for risk informed planning in GoB agencies working in key sectors and issues
- Enhance knowledge base on disaster risk to the private sector and promote risk informed business practices actions.

Project Implementation Structure

GOB Team

- Project Director
- Assistant Project Director
- Office Assistant
- Support Staff

Project Support Team

- Project Manager
- Risk Informed Planning Specialist
- Admin and Finance Associate

Implementing Agencies

- Department of Disaster Management (DDM), Ministry of Disaster Management and Relief
