

National Resilience Programme Quarterly FACT SHEET

UNOPS and LGED Sub Project Updates from July 2021 to September 2021

The second wave of COVID-19 impacted our regular work routine as some of our team members got infected by the virus. Training and meetings took place online platforms. Nevertheless, collaborative communication was maintained with other UN Partners and LGED via virtual meeting portals. Google Suit was used efficiently to maintain cooperation within the team. A roster system is being developed for the fourth quarter which will bring changes to the work from home modality.

Asset Management System in LGED

- Continued review of the Draft Final of two AMPs (Road + Bridge) by LGED and UNOPS;
- Road Deterioration Model (RDM) User's Guide finalized. Documentation of computerized RDM interface's architecture and coding is in progress.

Resilient Infrastructure

- The Government of Bangladesh gazetted the Road Design Standard of LGED effective from 16 August 2021.
- Draft diagnosis procedures of two pathologies (concrete spalling of bridge and pothole of road) has been developed and sent for LGED's review.
- Developing the Tool Kit along its operation documentation in progress.
- Online Training on Gender Marker Tool Kit conducted in collaboration with UN Women on 29th August and 31st August 2021.

Capacity Building of LGED

- An extensive Training of Trainers process - with the aim to build a pool of trainers with strong capability to deliver the technical contents of the Basic Course on Asset Management was completed.
- A residential training course for the 2nd batch of LGED officials on Project Management Professional (PMP) took place from 25th September 2021.
