NRP
Year wise achievements

2018

Inception Phase

- Partnership and rapport building for implementation

- Resilient Models Developed through Stakeholder Consultation

- Established Programme Management System

2019

Strengthening Community Capacity

- Developed a 'how to do guide' for Inclusion of DRR elements in the Social Safety Net Programmes
- Trained **960** Urban Community Volunteers (F384; M 576) on Earthquake Preparedness.
- Activated **12** ward level disaster management committees in **4** targeted cities.
- Formed **3** Building Construction Committees in **3** cities.

Strengthening National Capacity

- Supported MoDMR in formulating and disseminating SOD 2019.

Establishment of SFDRR monitoring and reporting system

- Assessed the capacity gaps and needs for a coherent monitoring and reporting system;
- Sensitized a total of **250** professionals including policy makers about their roles and responsibilities;
- Trained **30** (F 4, M 26) GoB officials from **18** ministries on Monitoring and Reporting procedures.

2020

Establishment of SFDRR monitoring and reporting system

- Formed Inter-ministerial Co-ordination Committee and Technical Working Group for Sendai reporting

Strengthening Community Capacity

- Developed **1440** Community Volunteers (F 576, M 864) under Flood Preparedness Programme
- Prepared Risk Reduction Action Plans (RRAP) in **20** unions using Community Risk Assessments (CRA) tools;
- Introduced **8** Risk informed Social Safety Net schemes in the most vulnerable community; estimated **10000** people in Kurigram and Jamalpur districts getting the benefits of the actions
- Trained **200** extreme poor households (F 114, M 86) on resilient livelihoods
- Trained **632** people on local level disaster preparedness.
- Activated **40** Disaster Management Committees in the targeted Ward, Union and Upazila
- Trained **133** first responders (F 53, M 80) on Disability Inclusive DRR, leadership and advocacy; search and rescue.
- **14** Public places including evacuation boats become accessible for persons with disabilities.
- Prepared **6** ward level Earthquake Contingency Plans for Tangail and Rangapur;
- Provided Search and Rescue Equipment to the **4** targeted cities.
- Reached out **188,696** people with COVID-19 awareness messages through **960** (male-576, female-384) Community Volunteers;

Strengthening National Capacity

- Formulation of National Plan for Disaster Management 2021-25
- Conducted study on existing capacity to deal Earthquake disaster
- Activated the National Disaster Management Advisory Committee and the Taskforce on Forecast based Action
- Sensitized **2176** professionals (F 540, M1636) on updated disaster management approaches

Establishment of SFDRR monitoring and reporting system

- Facilitated the Sendai indicator reporting against Target A (reduce mortality), B (reduce number of affected people), C (reduce direct economic loss), D (reduce damage of critical infrastructures and services) and E (enhance national and local DRR strategy) for the period January 2015 to December 2020.

Strengthening Community Capacity

- Developed a mathematical model - Dynamic Flood Risk Model - for flood early warning
- Developed **50** local trainers on Dynamic Flood Risk Model.
- Refresher training for **1440** Community Volunteers (F 576, M 864) on flood preparedness
- Demonstrated **7** risk-informed social safety net schemes; estimated **10000** people will get benefit from those schemes
- Trained **20** Government officials from agriculture, fisheries and livestock department at upazila level on climate resilience adaptation technology.
- An accessible resilient house model is being constructed for the flood/erosion prone areas for institutionalization.
- Prepared 6 ward level earthquake contingency plans for Rangamati and Sunamganj pourashavas.
- Trained **82** GoB officials on earthquake safe construction as per building codes
- Developed **560** Urban Community Volunteers (F 224, M 336) on Earthquake Preparedness.
- Provided light Search and Rescue Equipment in 4 targeted cities
- Reached out **350,000** people with COVID-19 awareness messages.

Strengthening National Capacity

- Developed National Recovery Strategy.
- Identified joint actions on Forecast based early Action .

National Resilience Programme

National Resilience Programme (NRP) : DDM Part

ROAD TO RESILIENCE

The National Resilience Programme (NRP) aims to sustain the resilience of human and economic development in Bangladesh through inclusive, gender-responsive disaster management and risk-informed development. It is a joint endeavor by the three UN agencies - UNDP, UNOPS & UN Women, and four ministries - Ministry of Disaster Management and Relief, Ministry of Planning, Ministry of Women and Children Affairs and Ministry of Ministry of Local Government, Rural Development and Co-operatives.

The NRP Department of Disaster Management (DDM) Part develops impactful, replicable, cost-efficient, and gender-responsive models for building resilience, in line with the Sendai Framework for Disaster Risk Reduction and the Sustainable Development Goals.

The DDM sub-project, in view to contribute to the resilience discourse, is developing models and approaches around following areas:

1. Sendai monitoring and reporting system;
2. Enabling policy environment for resilience;
3. Disaster risk inclusive Social Safety Net;
4. Institutionalization of flood preparedness and warning system;
5. Minimum preparedness package for earthquake;
6. Disability inclusive disaster risk reduction.
